PROFILE

UI/UX Designer with a Business Administration background — I design digital products that balance user psychology with real business outcomes. Experienced across Super Apps, ride-hailing platforms, and e-commerce, with a full end-to-end process: research, flows, wireframes, and scalable design systems. My marketing and consumer-behavior background gives me an edge most designers don't have — I understand why users make decisions, not just how they interact.

WORK EXPERIENCE

Self-Employed 10/2025 – Present
Freelance UI/UX Designer Cairo, Egypt

- Designed Flaride — a Super App unifying ride-hailing, food delivery, and parcel shipping — 40+ screens, full design system including components, tokens, style guide, and responsive layouts.
- Invented a Color-Coded Navigation System (orange = food, green = mobility & shipping) to reduce cognitive load across 3 service verticals, eliminating app-switching friction.
- Designed Wakanda Rides carpooling platform — booking, ride matching, driver profiles, live tracking, and post-ride flows across mobile app and website.
- Built 2 complete design systems from scratch covering tokens, component libraries, and responsive grids — enabling scalable, developer-ready handoff.
- Leveraged AI tools (Claude, ChatGPT) to compress UX research and synthesis timelines by ~40%.

Al-Maseela Company 11/2025 – 12/2025
UI/UX Designer Kuwait (Remote)

- Delivered a responsive corporate website (desktop + mobile) across 4 pages — completed within scope with zero revisions on final delivery.
- Established visual hierarchy and content structure aligned with corporate brand identity.

Syam Trading Co. (Era Cosmetics) 09/2024 – 11/2025
Graphic Designer Cairo, Egypt

- Designed social media visuals, branding, and packaging — developed strong foundations in typography, spacing, and visual composition now applied daily in UI work.
- Collaborated with marketing to translate campaign goals into visual content, building cross-functional communication skills relevant to product handoffs.

EDUCATION

Erasoft 06/2025 – 09/2025
